Genetic Resources and Crop Evolution **43**: 585–590, 1996.

Contents Volume 43

Volume 43 No. 1

Regular research papers

The principal component scoring: A new method of constituting a core collection using quantitative data 1–6
M. Noirot, S. Hamon, F. Anthony

Indian cucumber germplasm and challenges ahead 7–12
B.D. Sharma, D.K. Hore

Diversity in natural populations of wild *Brassica oleracea* as estimated by isozyme and RAPD analysis 13–23
C. Lannér-Herrera, M. Gustafsson, A.-S. Fält, T. Bryngelsson

Identification of new sources for resistance to powdery mildew in *H. spontaneum*-derived winter barley lines 25–31
S. Kintzios, G. Fischbeck

Genetic resource conservation of the endemic genus *Argyranthemum* Sch. Bip. (Asteraceae: Anthemideae) in the Macoronesian islands 33–39
J. Francisco-Ortega, A. Santos-Guerra, R. Mesa-Coello, E. González-Feria, D.J. Crawford

Patterns of diversity in *Cannabis* 41–52
E.P.M. de Meijer, L.C.P. Keizer

The wild ancestry of the cultivated artichoke 53–58
A. Rottenberg, D. Zohary

Isozyme relationships between cultivated artichoke and the wild relatives 59–62
A. Rottenberg, D. Zohary, E. Nevo

Sources of winter hardiness in wild lentil 63–67
A. Hamdi, I. Küsmenoğlu, W. Erskine

A forage grass and small grain legume plant collecting expedition in South East Poland, 1990 69–77
K.H. Chorlton, I.D. Thomas, D.W. Bowen, Z. Bulińska-Radmoska, M. Gorski

Genotypic variation in field resistance of *Cucurbita pepo* cultivars to powdery mildew *(Erysiphe cichoracearum)* 79–84
A. Lebeda, E. Křístová

Genetic resources of *Centrosema* spp.: genetic changes associated to the handling of an active collection 85–90
M. Isabel de O. Penteado, L.E. Sáenz de Miera, M. Pérez de la Vega

Genetic variation in germplasm accessions of *Secale vavilovii* Grossh. 91–96
S. Meier, R. Kunzmann, F.J. Zeller

Short communication

Provenance variation in seed germination and seedling growth of *Acacia nilotica* ssp. *indica* in India 97–101
B. Krishan, O.P. Toky

Volume 43 No. 2

Regular research papers

Sources of resistance to cyst nematode in cultivated and wild *Cicer* species 103–107
M. Di Vito, K.B. Singh, N. Greco, M.C. Saxena

***Lupinus anatolicus* – a new lupin species of the Old World** 109–117
W. Święcicki, W.K. Święcicki, B. Wolko

Variation of leaf esterases in some Ethiopian tetraploid wheat landraces 119–123
Seifu Tsegaye, H.C. Becker, Tesfaye Tesemma

A note on the Nigerian vegetable cowpea 125–128
M.I. Uguru

Conservation of the genetic variation of *Triticum tauschii* (Coss.) Schmalh. (*Aegilops squarrosa* auct. non L.) in synthetic hexaploid wheats (*T. turgidum* L. s. lat. × *T. tauschii*; 2n = 6x = 42, AABBDD) and its potential utilization for wheat improvement 129–134
A. Mujeeb-Kazi,V. Rosas, S. Roldan

Variation in a wild groundnut species, *Arachis duranensis* Krapov. & W.C. Gregory 135–142
A.K. Singh, P. Subrahmanyam, S. Gurtu

Characterisation of white clover populations collected from the Caucasus and high altitude regions of eastern Turkey 143–155
J.R. Caradus, M.B. Forde

Relationships of *Vigna unguiculata* (L.) Walp., *V. vexillata* (L.) A. Rich. and species of section *Vigna* based on isozyme variation 157–165
G. Sonnante, A.R. Piergiovanni, Quat N. Ng, P.Perrino

Selection of parental pairs for obtaining hybrids in the genera *Glycyrrhiza* L. and *Meristotropis* Fisch. et Mey. 167–171
O.A. Ashurmetov

Diversity in pearl millet germplasm from Cameroon 173–178
S. Appa Rao, M.H. Mengesha, K.N. Reddy

Chromosomal interchanges and phylogeny of some accessions of *Triticum aestivum* subsp. *spelta* 179–186
W. Lange, S. Petrović

Characterization of *Vitis* germplasm using random amplified polymorphic DNA markers 187–192
M.S. Grando, L. De Micheli, A. Scienza

Volume 43 No. 3

Regular research papers

Characterization and identification of *Lactuca sativa* cultivars and wild relatives with SDS-electrophoresis (*Lactuca* sect. *Lactuca, Compositae) 193–202
I.M. de Vries

Application of random amplified polymorphic DNA to study genetic diversity in *Paspalum scrobiculatum* L. (Kodo millet, Poaceae) 203–210
H. Kaburu M'Ribu, Khidir W. Hilu

Assessment of genetic variability in hexaploid wheat landraces of Pakistan based on polymorphism for HMW glutenin subunits 211–220
M. Tahir, T. Turchetta, R. Anwar, D. Lafiandra

Multivariate analysis of phenotypic diversity of *Coffea arabica* 221–227
C. Montagnon, P. Bouharmont

The genus *Amygdalus* L.(*Rosaceae*): Species relationships, distribution and evolution under domestication 229–247
K. Browicz, D. Zohary

Studies on South Asian okra collection: Methodology for establishing a representative core set using characterization data 249–255
R.K. Mahajan, I.S. Bisht, R.C. Agrawal, R.S. Rana

Evaluation of world collection of kabuli chickpea for resistance to iron-deficiency chlorosis 257–259
G. Bejiga, K.B. Singh, M.C. Saxena

Interspecific relationship and genetic diversity in wild beets in section Corollinae genus Beta: Isozyme and RAPD analyses 261–274
S.M. Reamon-Büttner, G. Wricke, L. Frese

Phylogenetic relationships of *Cajanus cajan* (L.) Millsp. (pigeonpea) and its wild relatives based on seed protein profiles 275–281
S.S. Jha, D. Ohri

Morphophysiological variation in some Mexican species of vegetable *Amaranthus*: evolutionary tendencies under domestication 283–290
C. Mapes, J. Caballero, E. Espitia, R.A. Bye

Short communication

About the origin of the French grey shallot 291–292
H.I. Maaß

Volume 43 No. 4

Regular research papers

Quantitative evaluation of Ethiopian landraces of lentil (*Lens culinaris*) 293–301
G. Bejiga, S. Tsegaya, A. Tullu, W. Erskine

Diversity in pearl millet germplasm from Central African Republic 303–308
K.N. Reddy, S.Appa Rao, M.H. Mengesha

Case studies on breeding systems and its consequences for germplasm conservation 309–318
A. Maquet, I. Zoro Bi, O.J. Rocha, J.P. Baudoin

Taxonomic relationships and interspecific hybridization in the genus *Lolium* (grasses) 319–327
G. Charmet, F. Balfourier, V. Chatard

Estimating genetic erosion in landraces – two case studies 329–336
K. Hammer, H. Knüpffer, L. Xhuveli, P. Perrino

Results of activities to maintain landraces and other material in some European countries *in situ* before 1945 and what we may learn from them 337–341
A.C. Zeven

Reduction of duplication in a *Brassica oleracea* germplasm collection 343–349
Th.J.L. van Hintum, I.W. Boukema, D.L. Visser

Enzyme polymorphism analysis in three endangered species of Himalayan poppy, *Meconopsis* (Papaveraceae) 351–356
I.M. Sulaiman, C.R. Babu

Isozyme variation in some races of maize from Argentina 357–362
L.A. Pflüger, A.R. Schlatter

Mixed data types and the use of pattern analysis on the Australian groundnut germplasm data 363–376
B.D. Harch, K.E. Basford, I.H. DeLacy, P.K. Lawrence, A. Cruickshank

A phenotypic diversity analysis of foxtail millet (*Setaria italica* (L.) P. Beauv.) landraces of Chinese origin 377–384
Yu Li, Shuzhi Wu, Yongsheng Cao, Xianzhen Zhang

Volume 43 No. 5

Regular research papers

The barley (*Hordeum vulgrae* L.) of Sardinia, Italy 385–393
G. Attene, S. Ceccarelli, R. Papa

Geographic variation in tetraploid wheat (*Triticum turgidum* ssp. *turgidum* convar. *durum*) landraces from two provinces in Ethiopia 395–407
L. Pecetti, A.B. Damania

Diversity and geographic distribution of adaptive traits in *Triticum turgidum* L. (*durum* group) wheat landraces from Turkey 409–422
A.B. Damania, L. Pecetti, C.O. Qualset, B.O. Humeid

Core subsets of base collections and priorities of national programmes: Indian perspective 423–428
R.S. Rana, S. Kochhar

RAPD polymorphisms in *Aegilops geniculata* Roth (*Ae. ovata* auct. non L.) 429–433
X-Y. Zhang, R.R-C. Wang, Y-S. Dong

Ahipa (*Pachyrhizus ahipa* (Wedd.) Parodi) in Bolivia 435–446
B. Ørting, W.J. Grüneberg, M. Sørensen

Useful genetic diversity in germplasm collections of food and forage legumes from West Asia and North Africa 447–460
L.D. Robertson, K.B. Singh, W. Erskine, A.M. Abd El Moneim

Resistance in *Cucurbita pepo* and *Cucurbita maxima* germplasms to cucumber mosaic virus 461–469
A. Lebeda, K. Křístková

Genetic studies on the powdery mildew resistance of winter barley lines derived from *Hordeum spontaneum* accessions collected in Israel 471–479
S. Kintzios, G. Fischbeck

Report of collecting-mission

Exploration, collection and characterisation of Basmati rice germplasm in India 481–484
B.C. Patra, S. Dhua

Volume 43 No. 6

Short communication

Seed protein electrophoretic characterization of cowpea (*Vigna unguiculata*) germplasm from IITA gene bank 485–491
P.G.C. Odeigah, A.O. Osanyinpeju

Regular research papers

A chemosystematic study of the flavonoids of *Vigna* 493–504
V. Lattanzio, A. Cardinali, V. Linsalata, P. Perrino, N.Q. Ng

History of coconut (*Cocos nucifera* L.) in Mexico: 1539–1810 505–515
D. Zizumbo-Villarreal

Effectiveness of some management procedures for seed regeneration of plant genetic resources accessions 517–524
K. Yonezawa, T. Ishii, T. Nomura, H. Morishima

Variation of seed and fruit characters in *Ceratonia siliqua* L. cultivars 525–531
G. Russo, G.B. Poligano

Genetic diversity in cucumber (*Cucumis sativus* L.): I. A reevaluation of the U.S. germplasm collection 533–546
V. Meglic, F. Serquen, J.E. Staub

Genetic diversity in cucumber (*Cucumis sativus* L.): II. An evaluation of selected cultivars released between 1846 and 1978 547–558
V. Meglic, J.E. Staub

Morphological diversity in sorghum germplasm from India 559–567
S. Appa Rao, K.E. Prasada Rao, M.H. Mengesha, V. Gopal Reddy

Host-plant resistance to *Pseudomonas solanacearum* in tomato germplasm 569–574
W.G. González, W.L. Summers

Phaseolin diversity in wild Lima bean (*Phaseolus lunatus* L.) in American centres of origin 575–580
L. Lioi

Book reviews 581–584

Contents to Volume 43 585–590

Author Index 591–592

Instructions to Authors 593–594
